19.三、阅读理解

Is your schoolbag heavy to carry? Don't worry and the e-schoolbag will help you.

Now, in some schools, students are using e-schoolbags. Maybe we can call the e-schoolbag an e-textbook(课本). It's a computer for students. The heavy schoolbag is a big problem for them. But the e-schoolbag will change everything. It's much lighter than the student's schoolbag. Also it's small, but it is able to save all the things for study, such as a textbook and an exercise book. The students don't need to take so many books with them any more.

How do these e-schoolbags work? There are very small chips in them. All the students have to do is to put the right chip into the e-schoolbag and press(按) a button(按钮). Then the students can read the text page by page on the screen, do their homework, or even send emails to their teachers. But they can't play any computer games.

Some people think it is useful, and it can help students to learn better. Some people say it is not good for students' eyes. But only time will tell.
